

Getting to Know Esri Community Maps

Christophe Charpentier, Deane Kensok, Seth Sarakaitis

Session Agenda

- ArcGIS includes a Living Atlas
 - Role of Community
- Community Maps Opportunities
 - Demo: Community Maps Tour
- Community Map Participation Process
 - Demo: Contributor Apps & Data Prep Tools
- Future of Community Maps Our Vision
- Questions & Answers

Content is integral to the Platform

The heartbeat of the System ...

... to Map, Understand and Analyze the World ... in the Cloud and on-premises

ArcGIS includes a Living Atlas of the World

Maps and Layers from Esri and Thousands of Contributors

Collection is Growing and Changing on a Daily Basis

Curated Content for Many Topics

Esri Content Portfolio within Living Atlas

Content is organized into set of themes, using Esri & Community Data

Community Maps Opportunities to Contribute

- Imagery Current and high resolution (1m or better)
- Elevation 10 meter DEM or better (3m or better in USA)
- Urban Observatory City-based themes
- Oceans Bathymetry & Places
- Hydrography Streams, Watersheds & Elevation
- Demographics Lifestyle and Business Data
- 3D Buildings, Zoning, Trees, Detailed elevation
- Basemaps Reference layers and features

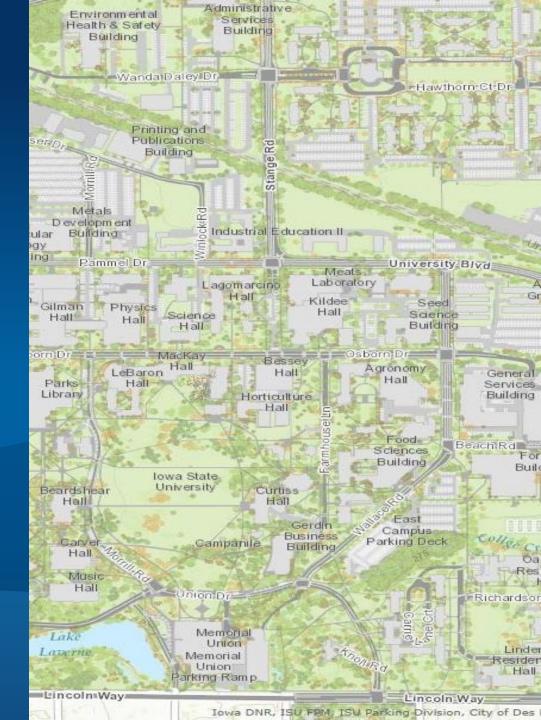

Community Maps Benefits

- Reach a Broad Audience with Your Data through ArcGIS Online
- Reliable Access to Maps with Your Data (99.9% Availability)
 - Includes data that extends beyond your community boundaries
- High-Quality Cartography Applied to Your Data
- Recognition for Contributed Content
- Retain Ownership to your Contribution

Search "UC2014 ECM" on ArcGIS.com for this Map Tour

ArcGIS Content Usage Is Growing Rapidly

Usage is being driven by high quality content from the community

Streets: High Usage in Japan & Thailand

2012

26 Billion+ Requests

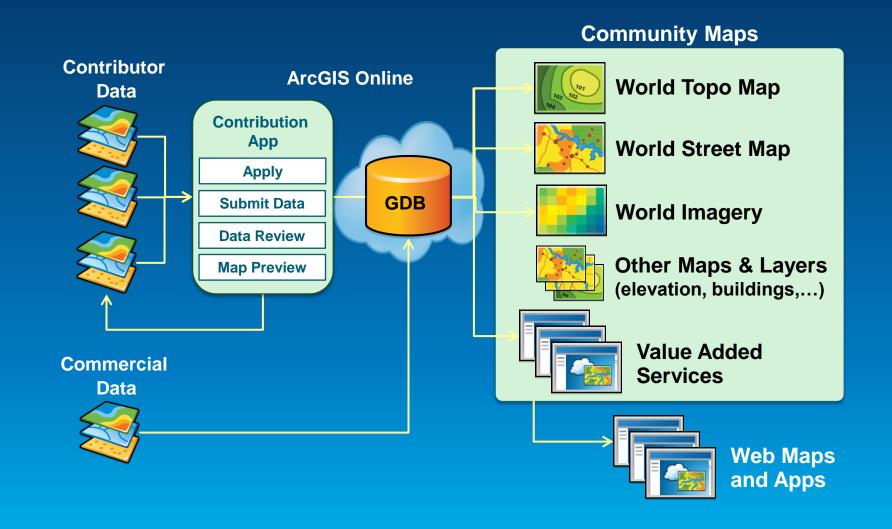

2013

14 Billion+ Requests

Topo: High Usage in Netherlands & UK

Basemap Usage Doubling Each Year

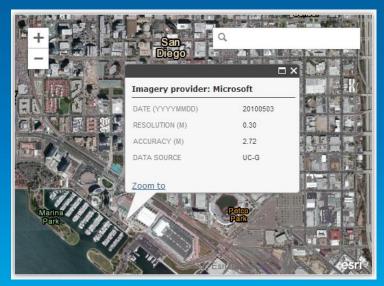

Esri Community Maps: High-Level Architecture

Imagery – What is Needed?

- Natural Color Imagery that is More Recent and/or Higher Resolution than what is currently available
 - 1m or better imagery where only 15m or 2.5m is now available
 - Get latest info for World Imagery map on ArcGIS.com

http://www.arcgis.com/features/maps/imagery.html

Basemaps – What is Needed?

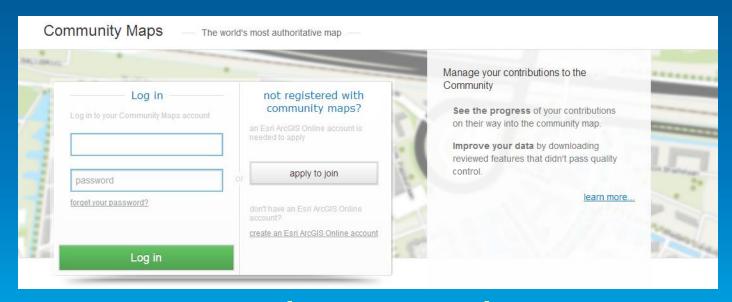

Layers Include:

- Building Polygons
- Parcel Polygons
- Tree Points
- Land Use Polygons
 - Airports
 - Educational
 - Medical
 - Parks
- Road Lines
- Administrative Lines
- Campus Features
 - Landscape Polygons
 - Hard Surface Polygons
 - Sports Field Polygons

Getting Started with Community Maps

communitymaps.arcgis.com

Top Three Community Maps Improvements

1. Contribution Application

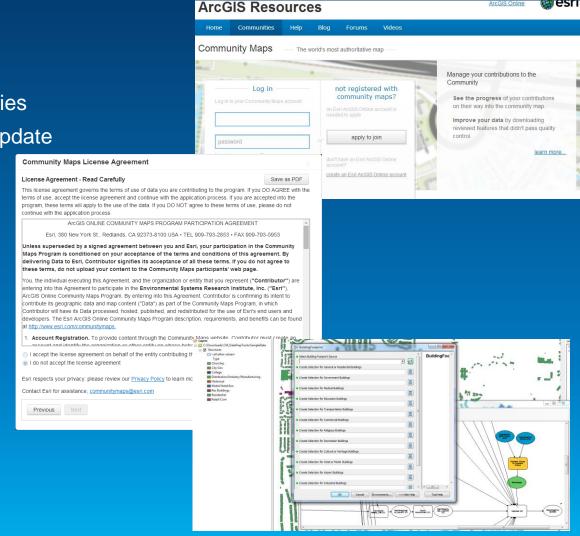

- One-Stop Shop for Community Maps Activities
- Register/ Upload/ Preview Map/ Approve/ Update

2. Participation Agreement

- Online Click-Thru
- Simplified Terms

3. Data Prep Tools

- GeoProcessing Tools for Submitting Data
- Beta

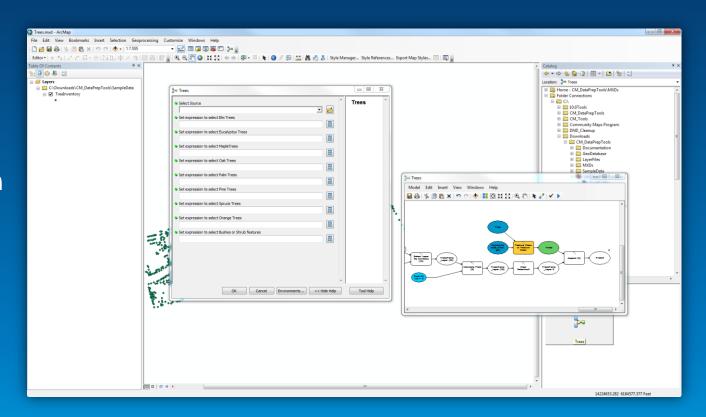

Community Maps Contributor App

https://communitymaps.arcgis.com

Data Preparation Tools

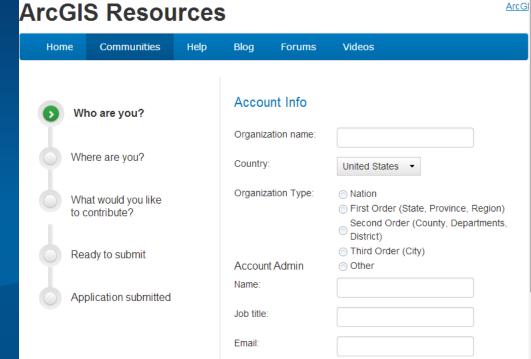

- Simple to Execute
- Not Data Model Centric
- A La Carte per Layer
- View layers before submission
