Issue 1. Ok formatting but not great. Would be better if could combine all onto one line with information from the repeat and survey all combined.

PHOTO POINTS

Photo 4: Main entrance

a) room facing 53 degrees

the degree values are actually coming from pulldata function!

b) Plant facing 340 degrees

Issue 2. Awkward formatting. title for next image not with image

c) Merch facing 258 degrees

Sample Report

PHOTO POINTS

Photo 3: department 3

a) Team space facing 70 degrees

PHOTO POINTS

Photo 2: department 2

a) Spotting scope facing 68 degrees

←
Issue 3. Image size/ratio is inconsistent using take photo vs. browse options. This was taken within the app and the aspect ratio is not desirable. Photo 3 was uploaded

b) cuteness facing 312 degrees

c) Plants facing 29 degrees

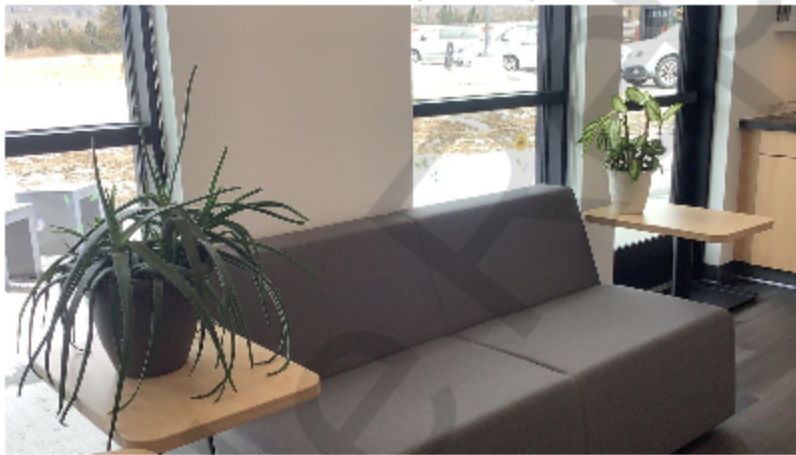

PHOTO POINTS

Photo 1: department 1

a) Signs facing 36 degrees

b) Bench facing 189 degrees
