

ArcGIS Online at the 2023 Esri User Conference

July 10 – 14 | San Diego, California

What's New and What's Coming

Date and Time	Session	Description
July 13 2:30 PM – 3:30 PM	<u>ArcGIS Online: What's New</u>	Get an overview of new features and functionalities in ArcGIS Online.
July 13 4:00 PM – 5:00 PM	<u>ArcGIS Online: The Road Ahead</u>	The inside perspective on the ongoing evolution of ArcGIS Online.

Getting started with ArcGIS Online

Date and Time	Session	Description
July 11 8:30 AM – 9:30 AM	<u>Getting Started: The ArcGIS System</u>	Gain familiarity with map creation, data management and analysis, sharing content, and collaborating internally and externally.
July 11 2:30 PM – 3:30 PM	<u>Getting Started with User Types</u>	We'll review different user types, selecting the right one for your team, and demonstrate how to administer them.
July 11 4:00 PM – 5:00 PM	<u>ArcGIS Online: An Introduction to Map Viewer</u>	Learn about new Map Viewer tools and visualization enhancements supporting your creation of beautiful and informative data.
July 12 4:00 PM – 5:00 PM	<u>Getting Started: Editing Workflows</u>	In this session, beginners learn how to edit their data in ArcGIS Online and ArcGIS Pro.

Administration

Date and Time	Session	Description
July 11 10:00 AM – 10:45 AM	<u>Authenticating to ArcGIS Online with SAML</u>	Work through the process of configuring ArcGIS Online to support SAML Authentication with an external Identity Provider (Azure Active Directory).
July 11 2:30 PM – 3:30 PM	<u>Getting Started with User Types</u>	We'll review different user types, selecting the right one for your team, and demonstrate how to administer them.
July 11 2:30 PM – 3:15 PM	<u>ArcGIS Online: Effective Tools to Manage Your Organization</u>	Covers effective tools to streamline the management of members, content, credits, storage, and other organizational activities.
July 13 10:00 AM – 11:00 AM	<u>ArcGIS Online and ArcGIS Enterprise: Administering Your Organization</u>	We review the best practices for administering your ArcGIS Online organization, including information for organization members responsible for setting up a new organization, assigning licenses, and managing organization members and content.

Mapping and Spatial Analysis in Map Viewer

Date and Time	Session	Description
July 11 10:00 AM – 10:45 AM	<u>ArcGIS Scene Viewer: Authoring Web Scenes</u>	This session covers the fundamentals of authoring web scenes, the type of scene layers, and how to use them as a base for your tailored web application.
July 11 11:30 AM – 12:15 PM July 12 11:30 AM – 12:15 PM	<u>ArcGIS Online: Editing in Map Viewer</u>	Discover the latest enhancements to Map Viewer editing workflows.
July 11 1:00 PM - 1:45 PM	<u>ArcGIS Online and ArcGIS Pro: Publishing and Sharing Pro Symbology</u>	Learn how to author maps using Map Viewer's wide range of point, line, and polygon symbol galleries to style your features.
July 11 1:00 PM - 2:00 PM July 12 10:00 AM – 11:00 AM	<u>ArcGIS Online: Spatial Analysis</u>	An introduction to performing spatial analysis in ArcGIS Online.
July 11 2:30 PM – 3:30 PM July 13 1:00 PM – 2:00 PM	<u>ArcGIS: Data Exploration and Visualization for Spatial Analysis</u>	Topics include charting in ArcGIS Pro and Map Viewer, spatial analysis visualization techniques, and communication tools and apps.
July 12 8:30 AM – 9:30 AM	<u>ArcGIS Online and ArcGIS Enterprise: Smart Mapping, an Introduction</u>	This session shows you how to explore your data using Smart Mapping and ask questions of your maps that allow you to create powerful visualizations.

Mapping and Spatial Analysis in Map Viewer (Continued)

Date and Time	Session	Description
July 12 10:00 AM – 10:45 AM	<u>ArcGIS Online and ArcGIS Enterprise: Tips and Tricks for Map Viewer</u>	A collection of high-impact tips and tricks to add that special something to your maps.
July 12 10:00 AM – 10:45 AM	<u>ArcGIS Online and ArcGIS Enterprise: Creating Smart Forms in Map Viewer</u>	Learn to build and configure focused smart forms for use in creating, updating, or deleting features and their attribute data.
July 12 2:30 PM – 3:15 PM	<u>ArcGIS Online and ArcGIS Enterprise: Designing Dynamic Pop-Ups</u>	We'll review best practices, tips and tricks, and offer dynamic examples from the ArcGIS Living Atlas of the World and beyond.
July 12 4:00 PM – 5:00 PM	<u>Getting Started: Editing Workflows</u>	In this session, beginners learn how to edit their data in ArcGIS Online and ArcGIS Pro.

Open Platform

Date and Time	Session	Description
July 11 11:30 AM – 11:50 AM July 13 2:30 PM – 2:50 PM	<u>ArcGIS Online: Building Data Pipelines</u>	Data Pipelines is a newly released cloud native data ingestion and engineering capability within ArcGIS Online.

Arcade

Date and Time	Session	Description
July 11 4:00 PM – 4:45 PM	<u>ArcGIS Online and ArcGIS Enterprise: Optimizing Arcade Workflows</u>	Come join us and learn how to use Arcade to tell engaging stories, create rich visualizations, and dynamic content for your audience.
July 11 4:00 PM – 5:00 PM	<u>Getting Started with Arcade</u>	Introducing Arcade - a portable expression language you can use across ArcGIS to create custom visualizations, labels, pop-ups, and field calculations.

Sharing and Collaboration

Date and Time	Session	Description
July 11 10:00 AM – 11:00 AM July 12 8:30 AM – 9:30 AM	<u>ArcGIS Online and ArcGIS Enterprise: Choosing the Right App Builder</u>	Learn about the different App Builders in ArcGIS Online and what questions to ask when selecting the right builder for your audience.
July 12 8:30 AM – 9:30 AM	<u>ArcGIS Online: Collaborating Across Organizations</u>	Learn how to co-manage groups, maps, apps, and members to create rich inter-organizational content with another organization.
July 13 2:30 PM – 3:30 PM	<u>Distributed Collaboration: Editing Across Environment</u>	This session includes an overview of distributed collaboration between ArcGIS Online and ArcGIS Enterprise.

Security, Infrastructure, and Deployment

Date and Time	Session	Description
July 11 1:40 PM – 2:00 PM	<u>ArcGIS: Assessing Your Cloud Readiness</u>	This session covers the Readiness Assessment process and key considerations or decision points for interested organizations.
July 12 1:00 PM – 2:00 PM	<u>ArcGIS Online: Compliance and Security</u>	Learn how ArcGIS Online delivers secure geospatial workflows while adhering to federal and organizational compliance obligations.
July 13 8:30 AM – 9:30 AM	<u>ArcGIS Online and ArcGIS Enterprise: Architectural Patterns and Practices</u>	This session covers how to choose the deployment that best fits your organizational needs.

Accessibility

Date and Time	Session	Description
July 12 10:00 AM – 11:00 AM	<u>ArcGIS Online and ArcGIS Enterprise: Best Practices for Web App Accessibility</u>	Learn how to optimize support for screen readers, keyboard navigation, and other assistive technologies across ArcGIS Online.
July 13 10:00 AM – 10:45 AM	<u>ArcGIS Online: Accessibility Best Practices</u>	ArcGIS Online offers many useful accessibility features and provides functionality within the application to allow users to generate accessible content for all audiences.

Data Hosting

Date and Time	Session	Description
July 11 10:00 AM - 11:00 AM	<u>ArcGIS Online: Best Practices for Hosted Feature Layers</u>	Discover enhancements supporting foundational mapping and data management workflows.
July 11 2:30 PM – 3:30 PM July 13 1:00 PM – 2:00 PM	<u>ArcGIS: Data Exploration and Visualization for Spatial Analysis</u>	Topics include charting in ArcGIS Pro and Map Viewer, spatial analysis visualization techniques, and communication tools and apps.
July 13 2:30 PM – 3:30 PM	<u>Distributed Collaboration: Editing Across Environments</u>	This session includes an overview of distributed collaboration between ArcGIS Online and ArcGIS Enterprise.

Data Management

Date and Time	Session	Description
July 11 8:30 AM – 9:30 AM July 12 8:30 AM – 9:30 AM	<u>Geocoding: What's New</u>	We'll touch on topics such as geocoding with ArcGIS Pro and ArcGIS Online, interactive geocoding, batch geocoding, address re-matching and building custom locators.
July 11 10:00 AM – 10:45 AM	<u>ArcGIS Online and ArcGIS Enterprise: Managing Offline Maps</u>	Learn how to prepare maps to take offline and work with them in a disconnected environment.

Data Management (Continued)

Date and Time	Session	Description
July 11 2:30 PM – 3:30 PM	<u>Embracing Data Management Best Practices</u>	In this session, you'll hear from two organizations on data management best practices.
July 11 4:00 PM – 4:45 PM	<u>ArcGIS: Working with Date-Time Data in Web Services</u>	This session covers two newer concepts: Preferred Time Zone and Unknown Time Zone, as well as some common issues you might run into with date-time data.
July 11 4:40 PM – 5:00 PM July 12 1:00 PM - 1:20 PM	<u>ArcGIS: Metadata Standards</u>	The session provides unique insights on the roadmap for metadata management in ArcGIS.
July 12 1:00 PM – 2:00 PM	<u>ArcGIS Online: Best Practices Authoring Scalable Maps</u>	Learn how to ensure the stability of public information during high volume use and unexpected spikes in traffic.
July 12 2:30 PM – 3:30 PM	<u>ArcGIS: A Practical Approach to Metadata, Catalog, and Search</u>	We demonstrate best practices, end-to-end workflows, and the use of the new Unified Metadata Editor Beta.
July 12 4:00 PM – 5:00 PM	<u>ArcGIS Online: Best Practices for Content Management, Item Discoverability, and Search</u>	Learn tips about how to best optimize your item so it is found in the search, how to categorize items for filtering and best practices for publishing public, authoritative items.
